

6504 SERIES HALOGEN HI/LO LIGHTS

SPECIFICATIONS	
Warranty	Extended
Lumens	1,800 Lm
Watts	90/100 Watt
Mounting Depth	70mm

TECHNICAL DETAILS	
Input Voltage	12V DC
Amp Draw (12V DC)	8.33 A
IP Rating	IP-65
Vibration Rating	8.6 G
Operating Temp	-40 Celsius ~ +80 Celsius

ADDED FEATURES	
• Plug-and-Play Harness with switch	
• Dual filament 90/100 Hi/Lo H4 bulb	
• Die-Cast Aluminium Housing	
• Black street legal Cover Included	

ADVANCED SPECIFICATIONS	
• Packaged Length: 237.5	
• Packaged Width: 137.5	
• Packaged Height: 287.5	

6504

Why Buy the VX-6504

Vision-X Off-Road has developed the ultimate halogen off-road light. The VX-6504 are unique designs using the same die-cast aluminium housing as its' HID counter parts but with a twist; an H4 Hi/Lo beam halogen bulb. These lights use the same reflector technology as major automotive manufacturers allowing the driver to use only the 80 watt low beam in dusty or close quarter conditions, keeping the light below the dust or close driver in front of them, or both 80 watt low beam and 100 watt high beam. To top it all off, the VX-6504 can be upgraded to HID at a later date. By simply inserting the Vision-X HID components package, these lights are easily converted to HID.

Powerful Hi/Lo Off Road Light

Die-Cast Aluminium Housing

The VX-6504 has a die-cast aluminium housing for strength and durability. The light is IP-65 rated meaning it is dust-proof and water-resistant.

HID Upgradable

The VX-6504 is easily upgradable to HID at anytime by simply adding an Vision X HID ballast and bulb.

Single Stud Mounting System

With the adjustable stud mount, the Vision X VX-6504 has an fast and versatile mounting system that won't leave you mounting all day.
